

# PUBLIC LEDGER

SIXTH YEAR.

MAYSVILLE, KY., WEDNESDAY, JULY 7, 1897.

ONE CENT.

LARGEST IN THE CITY.

## Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can take over his counter free of cost of dry goods or shoes. A newspaper is a business enterprise. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

**The Continued Cause.**  
Upon THE LEDGER for free notices have become so burdensome that we are forced to publish the following terms:

**For Notices of Deaths.**  
Funeral notices, or other public notices, are charged at the rate of 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line notice inserted in the paper. "It will tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—21 times—the bill is \$10.50. When he finds it out there is a "kick" and a controversy, followed probably by an "if" feeling. Now, to obviate this trouble, no "if" notice will be inserted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant all around.

**Does Not Include**  
notices of Lodge meetings or Church services, which must not exceed ten lines.

**Avoidance of Disputes.**  
Misunderstandings are unpleasant. The rate for business notices in THE LEDGER is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line notice inserted in the paper. "It will tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—21 times—the bill is \$10.50. When he finds it out there is a "kick" and a controversy, followed probably by an "if" feeling. Now, to obviate this trouble, no "if" notice will be inserted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant all around.

**All matter for publication must be handed in before 9 o'clock in the morning of each day.**

**If you have an item of news, please call up THE LEDGER, Telephone 33, and send it in.**

**YES! :-**  
**Matters Are Improving**

Hundreds of times in the past month have we been asked if business is improving. Above is our answer. The improvement in prices in our home-grown products has a tendency to lead people to buying better qualities than they did in the past three years. As an evidence of this we can truthfully say that since the advance of price in tobacco we have sold more of our highest class of goods than in thrice the given time in the past few years. It is a great satisfaction to a merchant to sell good, reliable goods. Greater still when he knows his efforts in that direction are appreciated.

The season for selling Summer Clothing is drawing to a close.

Having bought only highest grades of garments, we have nothing of any hard character to offer as a catch. To be sure, in many of our lines sizes are broken, but if you can be fitted you will buy the choicest of clothing at less than you pay for ordinary stuff elsewhere.

From the 1st to the 10th of July we will devote to a Clearing Sale throughout all of our departments.

If you desire to partake of some of our good things come along. Friday, Saturday and Monday we will have plenty of help to wait on you.

William Rudy, son of Mr. George Rudy of this city, was stunned by lightning during the storm at Portsmouth Monday afternoon.

On September 1st Rev. Father Broast of Covington, in his old home in Europe, will celebrate his silver jubilee, it being the twenty-fifth anniversary of his entrance to the Priesthood.

**JUST OUR CASE.**

The Reason Why Manufacturers Are Leaving the City of Covington.

Covington Commonwealth.

It is well known that arrangements are being made by the Charles McDonald Marble Works to move across the river to a suburb of the Queen City, yet no effort is being made by the Covington Council or municipal authorities to induce them to stay.

Fifty people were daily given employment there and at good wages, yet no one has approached the Company with any proposition to induce them to stay here. In their new location the Company has been given the ground five years free from taxation and a railroad switch laid into their yard.

In ten years past Covington has lost the American Nail Works, Hemmings' Glass Works, P. J. Meyers and a half dozen other factories.

Why?

The answer is dead easy.

Covington and Maysville are just alike. Neither would give 15¢ copper cents to induce a manufacturing enterprise to either start or to stay in the city.

The result is that young people, just as soon as they are thrown on their own resources, are forced to go elsewhere for employment.

Live, enterprising cities offer inducements for manufacturers to locate, and that is why they are outstripping the old fogy places in the march of prosperity.

**Y. M. C. A. MATTERS.**

What the Local Association Is Doing For the City's Young Men.

Messrs. John Duley, W. T. Berry and W. H. Cox have been requested by President Lane to audit the first year's accounts of both Treasurer and General Secretary.

The Women's Committee will meet in the Association Parlor on Friday evening at 7:30 o'clock, at which time officers are to be chosen and some important matters will be discussed.

President Lane has reappointed Miss Martha Stevenson and Miss Mary January as members of the Women's Committee for this second year, and also added Miss Lizzie Cox to the committee. The names of the first two ladies were by an oversight omitted when the list of the committees were published in this paper two weeks ago.

Even the severe heat of Sunday did not prevent a goodly number—about thirty young men—from attending the patriotic service at the Y. M. C. A., thus evidencing that deep interest in and value of this Sunday afternoon Men's Rally. The speaker and singers previously announced were prevented from coming, but instead a pleasant service—half hour in length—was conducted by President I. M. Lane. Several read brief articles bearing on the duties and responsibilities of citizenship, and Miss Bertha Ott sang very sweetly "Hail to the Flag." Miss Florence Konz playing the accompaniment for solo and hymns. All enjoyed refreshing lemonade after the service.

**COLLARS AND CUFFS.**

We bought them last week from a Boston wholesaler who needed money more than he needed merchandise. It's really a larger lot of Collars and Cuffs than we ought to buy at this season, but we couldn't resist the temptation of such a bargain. And we had another reason for buying. There is an object lesson in it. It shows what cash buying and cash selling can do. The lot includes four yokes of Collars, two standing and two turnovers, and the styles of Cuffs a narrow "red" deep turnover. All are 4-ply pure linen, regular 15c Collars and 25c Cuffs. I don't suppose for a moment we're talking of 10c Collars and 15c Cuffs. Convince yourself by inspection. Collars 9c, Cuffs 18c; one lot of Cuffs 12c.

**STOCK TIES.**

SENATOR LORR, who has just returned to Washington after a trip to New England, says that the revival of business activity is strongly marked in that section, and that there is every reason to believe that the improvement will be promptly felt in all parts of the country.

MR. JOHN Y. RICE, Republican candidate for Representative, was in the city Saturday and favored THE LEDGER with a call. Mr. Rice's home is at Murphysville. He is one of the county's best citizens, and if chosen to represent her people at Frankfort he may be depended upon to look after their interests.

The silver orators, who are brushing up their last year's arguments for use in Ohio and Iowa this fall, are not finding any use for those formidable tables with which they used to "prove" that wheat and silver had kept pace since 1873. Wheat has steadily advanced in price since those tables were devised, while silver has as steadily fallen.

ONE cause of the improved business condition which is making itself apparent lies in the fact that business men believe that the tariff question is being settled in a way to remain so for many years. The fact that Democrats in every section are giving their adherence to the Protective principle seems likely to take the question out of politics.

THE "protests" which the foreign Nations are making against our new tariff have created no uneasiness. The fifteen Nations which have objected or indirectly intimated that they do not like the Protective features of the bill have sold as \$1,750,000,000 more of goods than they have bought from us in the past decade, and hence are not unfurling to take any steps which will injuriously affect their commercial relations with us.

THE Ohio Democrats are weakening. A month ago they were sure that they were going to carry the state, but now they are beginning to admit that they do not see a victory in sight. Editor WILLIAMSON of Hamilton, who reports himself as "from the hotbed of the Buckeye Democracy," is quoted in a St. Louis paper as saying, "I do not think that we have any chance on the Ohio election this fall and would not be so shockingly surprised if we lost the Legislature and a United States Senator."

THE silver theorists are beginning to quarrel among themselves both about leadership and doctrines. Not only are the men who put up the cash for last campaign determined upon deposing DIXON from the leadership of their party, but ex-Governor BOES, an erstwhile leader in that party, has now declared for a paper currency based upon the market value of silver billion. Mr. BOES, like many others who are unwillingly accepted the Free-Silver theory last fall, recognizes the fact that the proposition to call 60 cents' worth of silver a dollar does not commend itself to the average mind and is not good finance.

**Call For National Democratic Convention**  
For the purpose of selecting Delegates to the State Convention to be held at Louisville, Ky., July 10th, 1897, to nominate a candidate for Clerk of the Court of Appeals, a mass meeting of National Democrats is hereby called, to be held at the Courthouse in Mayville, Saturday, July 10th, at 8 o'clock p. m. All Democrats who believe in sound money as a tariff for revenue only, in the honest and full payment of all lawful obligations, in law and order; in the protection of property from ravages and riot; in the restoration of good feeling, instead of arraying citizens and classes against each other; and in the protection of the name and credit of the Common wealth, are invited to attend.

CHAMBERLAIN D. FRANK, Chairman Mason County National Democratic Committee.

The Washington Presbyterian Sunday-school will have their annual picnic Saturday next in the beautiful woodland of Mr. John B. Holton.

What threshing in the county will begin this week. The yield is expected to be greater than for some years, while the quality is excellent.

The Consolidated Fishing Club of Flemingsburg will probably go to Petoskey, Mich., the latter part of this month for its annual outing.

Chemical experts of Cincinnati, employed by a party of the name of Tom Craig who was found dead near Flemingsburg under mysterious circumstances, reported that no traces of poison were discovered.

An advertisement offering 70 cents a bushel for wheat was inserted in a local paper at Lexington yesterday morning. This is 10 cents advance on the price being quoted. The advertiser says he will be in the city July 15th. His home is at Richmond, Va.

Charles F. Riley, the oldest employee in the service of the L. and N. Railroad, died at Lexington yesterday morning of paralysis, aged 71. He had been in the service of the road 46 years. He served first as brakeman and for the last 18 years as flagman.

**President Ratchford Greatly Pleased With the Progress.**  
**In Some Disorganized Districts the Miners are Holding Out.**

The enormity of this movement is attracting the attention of the whole country. The miners from the support of other organizations.

COLUMBUS, O., July 7.—President Ratchford, of the United Mine Workers, is greatly pleased with the progress of the present strike and regards the outlook as exceedingly bright. An encouraging report was received from the Pittsburgh district Tuesday morning, which stated that with the exception of the mine of the New York and Cleveland Gas Coal Co. and one or two mines where the miners are under contract, all were out.

It is stated that District President Dolan of the Pittsburgh district, expects the miners employed by the New York and Cleveland Gas Coal Co. to join the strike in a few days or so. It is thought that when the miners of the above mentioned company quit work it will have the effect of bringing to a halt the operations of the other mines out regardless of contracts which they may be under. This will make the suspension complete in the Pittsburgh district.

The Pittsburgh district is the only one that a report has been received from at Lexington on the national headquarters in this city. Nothing has been heard from West Virginia by the national officers Tuesday morning, but a report was expected from that section some time during the day.

Speaking of the situation Tuesday President Ratchford said:

"In some disorganized districts the miners are holding back to satisfy themselves that the movement is general before taking any part in it. On this point," said President Ratchford, "the miners have no right to be afraid. No should they manifest any weakness by urging others to take the initiative. The movement is for the benefit of the whole and will require the efforts of all to ensure success. It is sincerely hoped that this spirit will be long continued to exist."

Speaking of the magnitude of the strike and the interest being taken in it, President Ratchford said:

"The enormity of this movement is attracting the attention of the whole country. Our national legislators and members of the national cabinet express some alarm at the outcome of the present conflict. This is the first time in the history of the mining trade that the regulation of our wages or our trade policy has given rise to such any particular concern. We are pleased to know that even now interest is being expressed in the peaceful solution of this and future disputes."

In regard to legislation for the benefit of the miners and workmen, President Ratchford said:

"National legislation looking to the establishment of a shorter eight-hour work day, and the enactment of a minimum wage law as well as national arbitration for the settlement of future difficulties may be expected. This, however, will depend upon ourselves. If our miners content themselves with their lot, if they are satisfied to live in poverty, our national congress will offer but little objection. It is to be hoped every man in this country will lay down his pick and thereby do his part to bring about a better system for himself and his posterity."

"In summing up the whole situation I am inclined to feel that the confidence of the outcome. Our miners have an opportunity at this time which they have never had before. They must take advantage of it. They may never have it again."

"The press, the pulpit and the people are almost united in their sympathy for the miners. Offers of assistance have come from state and national unions. The labor league of Pennsylvania, which has a strong and powerful organization, at a meeting held in Pittsburgh on Sunday last, resolved to sustain the miners and give them material aid if required."

"With all of these influences and many others that might be enumerated, the future of the mining industry will occupy a higher plane and at least the necessities of life will be ensured to those dependent upon that branch of industry."

**Endeavorers' Narrow Escape.**  
REDDING, Cal., July 7.—The Christian Endeavor excursion train from Oregon had a narrow escape from a frightful wreck Tuesday afternoon two miles from Cottonwood. Charles Broadbent, a few days ago, in a steam train, had discovered that a wreck 20 feet long had been buried out. The train was rapidly approaching and in a few minutes more the train would have plunged through the trestle into the deep ravine below.

Broadbent, hurriedly flagged the train, which was brought to a stop a few feet from the yawning chasm. The train then backed to Cottonwood, where the Endeavorers celebrated their deliverance with hymns and prayers.

**Refused to be Installed Into Office.**

Secretary O'Rourke. Carroll was a grand trustee of the order and Wm. Kelly, of Kansas City, was appointed to the vacancy.

**George Dinning's Sentence.**  
FRANKLIN, Ky., July 7.—The jury in the case of George Dinning, colored, charged with killing Jodie Conn, white, returned a verdict of guilty of manslaughter late Monday afternoon and fixed his punishment at seven years in the penitentiary. Motion was made for a new trial, and Dinning was taken by the militia to jail at Louisville, where he will remain until the motion is passed upon. It is thought that the governor will pardon Dinning immediately after he is taken to the peni-

struck, and his clothes and shoes torn from his body. The strange part is that he was not injured and walked to his home, two miles distant.
